OFFICE OF PETITIONS

SUBMISSION OF RESPONSE AND
REQUEST FOR FILING DATE

Commissioner For Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

On June 11, 2004, the applicants faxed the enclosed Request for Reconsideration (Exhibit 1) to the U.S. Patent Office at (703) 872-9306, the number identified the June 2, 2004 Office Action as the number to which submissions should be faxed (Exhibit 2).

Our facsimile machine provided a confirmation that the 3 pages were in fact transmitted successfully (Exhibit 3). By way of background, the destination number on the fax result report is to be interpreted as follows. In Exhibit 3, the first three digits (595) is an access code to the fax machine. The next digit "9" is for an outside line. The next digit "1" is to designate long distance. The next ten digits are the telefacsimile number.

When no Office Action had been received by the end of the three-month period, the undersigned telephoned Examiner Robinson to inquire when one might be expected. He indicated that there was no response in the system. The applicants thereupon faxed a courtesy of the amendment to Examiner Robinson and again faxed the Request for

Reconsideration to the (703) 872-9306 number (Exhibit 4). The fax machine transmission result report again reported that both faxes were satisfactorily transmitted. (Exhibit 5).

When no automated reply was received from the Patent Office, the applicants faxed the entire package again with a specific request for a confirmation of receipt of fax (Exhibit 6). The transmission result report (Exhibit 7) again shows that this paper was successfully transmitted.

The applicants telephoned Examiner Robinson a few days later to inquire if the faxes had been received. He advised that the courtesy copy had in fact been received. He checked to see if the Request for Reconsideration of Exhibit 1 was in the electronic system and reported that it was not. However, he indicated that it sometimes takes a while for these materials to be entered into the system.

On September 28, 2004, we telephoned Examiner Robinson to inquire if the Request for Reconsideration was yet in the system. The message was left on his voice mail. On September 29, 2004, Examiner Robinson telephoned to report that it was not.

The applicants include a Declaration of Hilary McNulty, who signed the three certificates of faxing, declaring that she did in fact fax Exhibit 1 to the Patent Office on the dates indicated on the certificates of faxing (Exhibit 8).

The applicants are very disappointed that despite thrice submitting the Request for Reconsideration of Exhibit 1, it is still not in the U.S. Patent Office system and available for the Examiner to officially consider. The applicants hereby request that the Request for Reconsideration of Exhibit 1 be entered and that it be accorded the filing date of June 11, 2004.

In the alternative, the applicants ask that the Request for Reconsideration be accorded the filing date of September 2, 2004. If for any reason this request is denied, the applicants request that the Request for Reconsideration be granted the mailing date of this communication,

i.e., September 30, 2004, and that a one-month extension of time fee be charged to Deposit Account No. 06-0308.

Please charge any petition fees which may be due in conjunction with this request to Deposit Account No. 06-0308.

Respectfully submitted,

FAY, SHARPE, FAGAN,

REQUEST FOR RECONSIDERATION

Commissioner For Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

The applicants hereby request reconsideration of the requirement to cancel dependent claims 26 and 28.

The Office Action of June 2, 2004 incorrectly states that claims 26 and 28 are drawn to a non-elected "invention". To the contrary, they are directed to a non-elected "species". Claim 26 depends from allowed generic claim 24 and claim 28 depends from allowed generic claim 12. As stated in the Examiner's Election of Species requirement of April 11, 2003:

Upon the allowance of a generic claim, the applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all of the limitations of an allowed generic claim as provided by 37 CFR 1.141.

It will be seen that allowed claim 12 is generic. That is, it is not specific to either the continuous rotate mode of Species A or the stop-and-shoot mode of Species B. Similarly,

allowed claim 24 is generic in that it is not specific to either the continuous rotate mode of Species A or the stop-and-shoot mode of Species B.

Because claims 26 and 28 depend from allowed generic claims, it is submitted that the applicants are entitled to allowance of claims 26 and 28 (37 CFR 1.144).

It should be noted that the June 2, 2004 Office Action improperly lists MPEP § 821.01 as a basis for requiring cancellation. MPEP § 821.01 is limited to Restriction Requirements requiring restriction between patentably distinct inventions. By contrast, the present application was subject to an Election of Species requirement, to which MPEP § 821.01 does not apply.

For the reasons set forth above, an early withdrawal of the requirement for the cancellation of claims 26 and 28 is requested. An early allowance of claims 1-17 and 22-28 is requested.

Respectfully submitted,

FAY, SHARPE, FAGAN,
MINNICH & MCKEE, LLP

REQUEST FOR RECONSIDERATION

Commissioner For Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

The applicants hereby request reconsideration of the requirement to cancel dependent claims 26 and 28.

The Office Action of June 2, 2004 incorrectly states that claims 26 and 28 are drawn to a non-elected "invention". To the contrary, they are directed to a non-elected "species". Claim 26 depends from allowed generic claim 24 and claim 28 depends from allowed generic claim 12. As stated in the Examiner's Election of Species requirement of April 11, 2003:

Upon the allowance of a generic claim, the applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all of the limitations of an allowed generic claim as provided by 37 CFR 1.141.

It will be seen that allowed claim 12 is generic. That is, it is not specific to either the continuous rotate mode of Species A or the stop-and-shoot mode of Species B. Similarly,

allowed claim 24 is generic in that it is not specific to either the continuous rotate mode of Species A or the stop-and-shoot mode of Species B.

Because claims 26 and 28 depend from allowed generic claims, it is submitted that the applicants are entitled to allowance of claims 26 and 28 (37 CFR 1.144).

It should be noted that the June 2, 2004 Office Action improperly lists MPEP § 821.01 as a basis for requiring cancellation. MPEP § 821.01 is limited to Restriction Requirements requiring restriction between patentably distinct inventions. By contrast, the present application was subject to an Election of Species requirement, to which MPEP § 821.01 does not apply.

For the reasons set forth above, an early withdrawal of the requirement for the cancellation of claims 26 and 28 is requested. An early allowance of claims 1-17 and 22-28 is requested.

Respectfully submitted,

Comments

Eva Robinson,
Here's another copy of the response
that we filed June 14, 2004 that does
not appear in the Pat. Office Records.
Because today is the 3-month date,
this response is to be considered as
the response and entered into the PTO
record also timely filed. *Tom Kozlowsky*

REQUEST FOR RECONSIDERATION

Commissioner For Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

The applicants hereby request reconsideration of the requirement to cancel dependent claims 26 and 28.

The Office Action of June 2, 2004 incorrectly states that claims 26 and 28 are drawn to a non-elected "invention". To the contrary, they are directed to a non-elected "species". Claim 26 depends from allowed generic claim 24 and claim 28 depends from allowed generic claim 12. As stated in the Examiner's Election of Species requirement of April 11, 2003:

Upon the allowance of a generic claim, the applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all of the limitations of an allowed generic claim as provided by 37 CFR 1.141.

It will be seen that allowed claim 12 is generic. That is, it is not specific to either the continuous rotate mode of Species A or the stop-and-shoot mode of Species B. Similarly,

allowed claim 24 is generic in that it is not specific to either the continuous rotate mode of Species A or the stop-and-shoot mode of Species B.

Because claims 26 and 28 depend from allowed generic claims, it is submitted that the applicants are entitled to allowance of claims 26 and 28 (37 CFR 1.144).

It should be noted that the June 2, 2004 Office Action improperly lists MPEP § 821.01 as a basis for requiring cancellation. MPEP § 821.01 is limited to Restriction Requirements requiring restriction between patentably distinct inventions. By contrast, the present application was subject to an Election of Species requirement, to which MPEP § 821.01 does not apply.

For the reasons set forth above, an early withdrawal of the requirement for the cancellation of claims 26 and 28 is requested. An early allowance of claims 1-17 and 22-28 is requested.

Respectfully submitted,

FAY, SHARPE, FAGAN,
MINNICH & MCKEE, LLP

DECLARATION OF HILARY McNULTY

Commissioner For Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, Hilary McNulty, declare that I did in fact fax the Request for Reconsideration of Exhibit 1 to the U.S. Patent and Trademark Office at (703) 872-9306 on June 11, 2004, and again two more times on September 2, 2002.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
